LIGHTING TECHNOLOGIES

LIGHTING PARTNER PROGRAM

You run the jobs. We run your growth.

A homeowner facing lighting website built to beat every installer site in your county, with instant estimates, online booking, financing, and real city pages, under your brand, paid for as a sliding share of what you actually earn. Every fee dollar buys you the site outright.

WHAT THIS IS

A lighting business that sells itself online, **without you building it.**

Brighter Nights builds and runs the online side of your lighting business, under your brand, in your exclusive county. Your site is a stripped down, homeowner only version of the system we run at brighternights.com. Only the tools a homeowner uses, nothing you have to manage. You focus on the work and pay only as a percentage of what you earn.

WHAT YOU GET

Your homeowner site

About 25 pages under your brand. Roofline and landscape services, pricing, financing, warranty, HOA, gallery, reviews, and five seasonal use case pages, all built to convert on a phone.

Instant estimates

Homeowners price their own roofline job in under a minute using your per foot pricing, then prequalify for financing in the same flow. Every estimate lands in your inbox.

Online booking

Site visits and installs booked straight into your calendar with a card deposit collected up front. No phone tag, no no shows.

Leads answered in 60 seconds

Every call, form, and booking is tracked to its source, and every new lead gets a text back within a minute, day or night, before a competitor can.

Your build dashboard

Watch your site come together in real time. See what we are working on, leave comments, suggest changes, and approve pages before they go live.

Photo and video library

Licensed use of thousands of real install photos and videos so your site looks like a company that has been doing this for years.

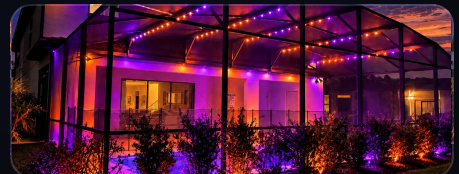

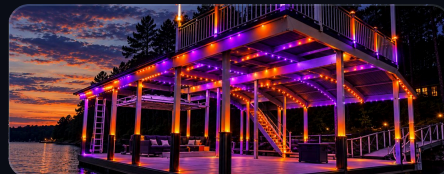

City pages you own

Ten real city pages with neighborhoods, map, local photos, and reviews, plus Google Business Profile and schema, so you show up when your county searches.

Reviews on autopilot

Google reviews embedded on the site with names and dates, and a two touch review request after every install so you pass 50 reviews fast.

Real installs from the shared library. Every partner site launches with a full gallery on day one.

3 to 5 days

Product is supplied through distribution and stocked nationwide. You never carry inventory to get started.

We audited the top installer sites in seven metros. Yours launches ahead of them.

Fourteen top ranking installer sites across Phoenix, Dallas, Orlando, Denver, Houston, Atlanta, and Chicago, plus the dealer pages Trimlight, Gemstone, and JellyFish give installers. What they have, and what yours has on day one.

Why the bar is beatable. Manufacturer dealer pages are built to own first contact, so they will never add pricing, booking, or an estimate tool for you. Independent dealers solved the skeleton and the proof, then stopped. Published pricing, a named lender, and ten real city pages put you ahead of what the top dealers in Phoenix, Dallas, and Orlando publish today.

Survey figures from Podium, the Housecall Pro 2025 homeowner survey of 1,040, and Wisetack published results. Site audit September 2026. Sources on request.

Hire a marketing company, copy the best installer, or launch ahead of both.

What each route costs you in cash, time, and what you end up owning. Agency figures are 2026 published ranges. The installer column is the best independent site in the audit.

	GENERIC MARKETING AGENCY	BEST INSTALLER SITE TODAY	YOUR PARTNER SITE
Upfront cash	\$7,500 to \$20,000, before tools	Same, over years of revisions	\$0. You pay only from revenue you earn
Monthly retainer	\$1,500 to \$5,000 a month, paid whether or not you book a job	Usually an agency retainer too	None. One sliding fee that falls as you grow
Lighting knowledge	None. You teach them roofline, spacing, HOA, seasonality	Learned the hard way	Built in. We make the product and ran a dealership to \$1M

YEAR ONE, SIDE BY SIDE, AT \$350,000 IN LIGHTING REVENUE

AGENCY ROUTE

Custom site, mid range	\$12,000
Estimate tool and booking, add ons	\$8,000
Local SEO retainer, 12 months at \$2,000	\$24,000
Your hours teaching them lighting, 60 at \$100	\$6,000

Cash out before your first lead \$50,000

Paid whether the phone rings or not. No photo library. Live in month 4 to 8. Ranges from Routeless, HowWebDesign, Search Sherpa 2026 guides.

PARTNER ROUTE

Upfront	\$0
Fee, 7% on the first \$250,000	\$17,500
Fee, 6% on the next \$100,000	\$6,000

Paid, all from revenue earned \$23,500

\$7,050 of that goes back into your ads. Every dollar credits the ledger. Live in weeks, with thousands of install photos on day one.

HOW IT IS PAID FOR

No upfront bill. The percentage falls as you grow.

You pay a sliding percentage of your gross lighting revenue. Each tier only applies to the dollars inside it, the same way tax brackets work, so growing never bumps your whole bill into a higher rate.

YOUR ANNUAL GROSS LIGHTING REVENUE	FEE ON THAT PORTION	BLENDED RATE FALLS AS YOU GROW				
First \$250,000	7%	7.0%	6.5%	6.0%	5.5%	4.7%
\$250,000 to \$500,000	6%					
\$500,000 to \$750,000	5%					
\$750,000 to \$1,000,000	4%					
Above \$1,000,000	3%					

Reported monthly, verified against your distributor purchases. Lighting revenue only. Your other trades are never touched.

WHAT THAT LOOKS LIKE IN DOLLARS

\$32,500

AT \$500,000 GROSS

6.5% blended. About \$2,700 a month.

\$55,000

AT \$1,000,000 GROSS

5.5% blended. About \$4,600 a month.

\$70,000

AT \$1,500,000 GROSS

4.7% blended. About \$5,800 a month.

WE PUT MONEY BACK IN

30% of our fee goes straight into advertising for your business

We ask you to match that 30% into your own local marketing. At \$500,000 gross that is roughly \$9,750 from us and \$9,750 from you, spent on ads that ring your phone, every year.

WHAT THE FEE IS NOT

Not a franchise fee

You keep your company name, your brand, and your customers. We never own any part of your business.

Not a cut of your other work

Only lighting revenue counts. If you also do gutters, roofing, or pavers, that money is yours alone.

Not money that disappears

Every fee dollar credits toward owning your site. The next page shows how.

Your site has a real, stated value. Every fee dollar buys it.

Every partner site carries a stated dollar value. We call it the ledger. It is what it would cost you to have the same thing built by an agency at 2026 published rates, and nothing more.

WHAT IS ON THE LEDGER AT LAUNCH	MARKET VALUE
Custom homeowner site, about 25 pages Services, pricing, financing, warranty, HOA, gallery, reviews, five use case pages	\$15,000
Ten city pages plus service area hub Local copy, map, schema, local reviews	\$5,000
Instant estimate tool with financing prequal Per foot pricing logic, named lender	\$7,000
Online booking with deposits	\$5,000
Lead tracking, 60 second response, review automation	\$4,000
Your build dashboard Progress, comments, approvals	\$6,000
Photo and video library license	\$7,500
Local SEO, schema, Google Business Profile	\$3,500
Copy, launch QA, speed, first year hosting	\$3,000
Ledger opening value	\$56,000

Priced against 2026 published agency ranges. Conversion focused contractor sites run \$7,500 to \$20,000 before city pages, booking and calculator features add \$2,000 to \$10,000 each, client portals start at \$15,000, local SEO setup runs \$1,500 to \$5,000. We price at the middle, never the top.

THE RULE

100%

of every fee dollar you pay credits against the ledger. When your credits reach the balance, the site is yours. Domain, content license, and ad accounts all transfer to you.

WORKED EXAMPLE

- Year 1 · \$350,000 gross**
Fee \$23,500. Ledger credit \$23,500 of \$56,000.
- Year 2 · \$500,000 gross**
Fee \$32,500. Credits reach \$56,000 in the last month of year 2. The site is yours.
- Year 3**
You own the asset. The growth service runs through the term on the same sliding fee, then renews only if you want it.

NOT COUNTED, BUT REAL

We do not put your saved time or the months an agency would take to learn permanent lighting on the ledger. Those savings are yours to keep. The ledger is only what was built.

Want more than the base site

Extra pages, a new tool, a CRM. We quote it in writing, build after your approval, and it joins the ledger at that price when it ships. Maintenance and hosting never raise the ledger.

An asset you can point to

A site with a stated value on a live ledger is a business asset, the same as a truck or equipment, if you ever sell your company or bring on a partner.

You see everything, every week.

From day one your build dashboard shows what we are working on, what shipped, and what it cost. Comment on any page, suggest changes, and approve work before it goes live. After launch it becomes your weekly report.

Credit	100% of every fee dollar credits the ledger	Cancel	Any time. The ledger math still applies

EVERY WEEK AFTER LAUNCH

- Current ledger balance**
And exactly what it would cost to buy out today.
 - What shipped and what it cost**
Nothing goes on the ledger you did not approve in writing.
 - Your fee tier and month to date**
Shown before the invoice, never after.
- Leads, calls, bookings, rankings**
Every lead tied to the source that produced it.
 - What we suggest adding next**
We review competitor sites in your county and propose the next move. Your call.
 - Your time**
One to two hours a week with your partner manager. The community covers the rest.

NEXT STEPS

Ten seats. One per county. When yours is taken, it is taken.

We onboard two partners a month so every launch gets full attention. The founding round closes at ten.

- 1 Qualification call**
20 minutes. Your county, your trade background, your goals for year one.
- 2 Territory check and seat offer**
We confirm your county is open and hold it for you for 7 days.
- 3 Agreement signed**
Attorney drafted language that mirrors the plain terms on page seven. No surprises.
- 4 Build, with you watching**
Site, tools, and tracking built in 2 to 4 weeks. You comment and approve in your dashboard as it comes together.
- 5 Onboarding and first bids**
Product training, bidding help, and your first ads go live.
- 6 Launch**
Weekly reports begin the following week. Your ledger starts crediting on your first invoice.

STRAIGHT ANSWERS

Do I have to be a lighting contractor already?

No. Most founding partners are roofers, gutter, pool, paver, or electrical contractors adding lighting. We teach the product and the bidding.

Who owns the site while I am paying?

We do, until your credits reach the ledger. Then you do. Your domain and brand are yours from day one.

What if I leave early?

You can. The buyout is the ledger balance minus what you have already credited, plus three months of trailing fee. No other penalty.

Can I add my own pages or tools later?

Yes. We quote it in writing, you approve it, and it goes on the ledger at that price when it ships.

What do I pay before launch?

Nothing. The first invoice comes after the first month of lighting revenue.
